

**COLOUR DEFICIENCY TEST CARDS FOR CHILDREN  
(SET OF 10 CARDS)**

**OP-5065**

This 10 Plate Color blindness test card is used for identification of congenital color deficiency in infants and illiterate patients. Instead of numerals, this edition utilizes Stars, Circles, Triangle, or winding lines. With this test you will be able to detect patients that have a total color deficiency or a red-green color deficiency.

**Features:-**

- The 10-plate Color Blindness test is designed for quick screening of red/green color deficiencies.
- It includes 10 special plates for tests to determine the type and degree of defect in color blindness.
- Each Card Size: 115 x 110mm with Instruction Manual.
